PRESS RELEASE

## **SIT S.P.A. - ACCREDIA CERTIFIES METERSIT'S LABORATORY**

*The multinational based in Padua among Italy's 3 certified laboratories.  
Chairman and CEO De Stefani: "We are opening up to third-party service provision".*

Padua, February 6, 2020 - [MeteRSit](#), the SIT Group company which designs, manufactures and distributes innovative gas meters, has been UNI EN ISO/IEC 17025 certified by Accredia, the Italian Government designated Certification Body.

The certification covers the calibration of gas volume and flow meters at the Padua metrological laboratory, recognising its quality, integrity and precision. It also allows MeteRSit to provide legally-approved certification services to third parties and competitors, undertaking also outside laboratory analysis.

"There are only three laboratories in all of Italy which perform meter calibration certification both in terms of volume and gas flow and being numbered among these is a source of great pride" stated Federico **De' Stefani, Chairman and CEO of SIT**. "This recognition follows a mainly internal quality drive, as the accredited MeteRSit laboratory is independent from the Research & Development activities. We can expand the business to offer SIT services to third parties, highlighting the quality of our processes, our instrumentation and above all of our know-how".

\*\*\*

SIT develops, produces and distributes components and systems for the control and safety of gas-based domestic heating and catering equipment. The Group operates in the Smart Gas Metering sector (with the subsidiary MeterSit), producing new generation remote meters with real-time consumption readings and communication. SIT is listed on the Italian Stock Exchange and has production companies located in Italy, Mexico, the Netherlands, Romania and China, in addition to a commercial and distribution structure covering all global markets.
