

ESG, SIT wins the 2023 Sustainability Award. First place in the “Top 100 ESG Score” ranking

The award, promoted by Kon Group and Elite (Euronext), is awarded to Italian companies which have distinguished themselves in ESG practices

Padua, October 16, 2023 - **SIT** secures the top of the ESG podium and confirms itself as a champion company in sustainability practices. The multinational listed on the Euronext Milan segment of the Italian Stock Exchange which creates intelligent solutions for the control of environmental conditions and the measurement of consumption, **has won the 2023 Sustainability Award, an award promoted by Kon Group and Elite (Euronext) in partnership with Azimut.** The award recognizes Italian companies that have best expressed their ability to innovate, renew and activate the best energies, promoting sustainable, inclusive and stable growth, creating added value for all stakeholders. **SIT ranked first in the "Top 100 ESG Score" ranking**, reserved for companies with a turnover exceeding 250 million euros, having obtained the highest score in the three areas of the evaluation model (environment, social responsibility, governance).

This award represents further recognition of the validity of the path undertaken by SIT in the field of Sustainability, which has among its fundamental stages the establishment of a dedicated Governance and the definition and implementation of the Sustainability Plan to 2025 - "Made to Matter".

Among the most recent achievements worth mentioning:

- the **Certification on gender equality**, pursuant to UNI/PdR 125:2022;
- the "**Verification of the 2021 GHG inventory**" by *Bureau Veritas*, which allowed the organization's Carbon Footprint to be measured in a timely manner according to the UNI EN ISO 14064-1:2019 standard;
- the launch of the **supply chain ESG assessment process** in collaboration with *EcoVadis*.

The award ceremony was held on Wednesday evening, 11 October, in Palazzo Mezzanotte in Milan. **Chiara de' Stefani, Corporate Sustainability Director of SIT**, accepted the award: "*The prestigious Sustainability Award 2023, which I received on behalf of SIT, is a source of great satisfaction as it attests to our excellence in all areas of Sustainability: Environment, Social responsibility and Governance. The award demonstrates the approach we have adopted in SIT by involving the entire company and putting sustainable development at the centre of our business. The recognition achieved gives us further motivation and energy to continue along the path undertaken.*"

SIT has been operating in the energy transition for years, with the aim of providing the sector with solutions and technologies capable of supporting the progressive decarbonisation of heating in line with the provisions of the REpowerEU legislation. First with biomethane, then with a mix of gas and hydrogen and finally with 100% hydrogen SIT has developed both safety controls for boilers and residential and commercial meters running on 100% hydrogen, acting as a sustainable partner of companies and institutions for the creation of solutions for energy efficiency and the protection of natural resources. Through the Heating&Ventilation, Smart Gas Metering and Water Metering Business Units, the SIT group creates intelligent solutions for the control of environmental conditions and the measurement of consumption for a more sustainable world. Multinational leader in the reference markets and listed in the Euronext Milan segment, SIT aims to be the main sustainable partner of solutions for energy and climate control at the service of client companies, paying great attention to the experimentation and use of alternative gases with low environmental impact. The group is present with production sites in Italy, Mexico, Holland, Romania, China, Tunisia, and Portugal, as well as having a commercial structure that covers all the reference world markets. SIT adheres to the United Nations Global Compact and the related principles which promote a responsible way of doing business. SIT is also a member of the European Heating Industry and of the European Clean Hydrogen Alliance, as well as of the *Valore Acqua for Italy* Community – www.sitcorporate.it
